PROFILE

Passionate Full Stack Developer with over 5 years of experience building tailored software solutions using MEVN and MEAN stacks. Strong background in ERP and HRMS systems, with a focus on performance, usability, and scalability. Detail-oriented professional committed to innovation, clean code, and delivering solutions that consistently exceed client expectations.

WORK EXPERIENCE

Elite Click Corporate Service Leaders | Dubai UAE
Full Stack Developer

2025 - Present

- Built a complete B2B inventory and quotation management system (**Breadth**) with dual portals, supplier linking, warehouse stock management, RFQ workflows, real-time analytics, and automated quotation generation.
- Developed a full social community platform (**GOLDN Socialista Ladies**) featuring events, newsfeeds, partner offers, group and peer-to-peer chats with rich media sharing, QR-based attendance, Stripe-powered memberships, and comprehensive admin controls.
- Created a multi-portal Islamic meditation platform (**Al-Abrar**) with spiritual exercises, gamified rewards (coins & gems), AI-driven recommendations, inventory-based store, daily Islamic quote notifications, and integrated Stripe payments.
- Delivered a comprehensive project management system (**Enigma**) with task management, timelines, dashboards, team collaboration, automated notifications, and customizable multi-department workflows.
- Currently working on **Dearly ERP**, a large-scale enterprise resource planning system built on a monorepo architecture using Nx, enabling shared libraries, modular services, and scalable frontend-backend integration. Actively developing core ERP modules, optimizing inter-app communication, and ensuring maintainable, high-performance enterprise-grade architecture.
- Managed full-stack architecture, API development, database design, security, caching with **Redis**, and deployments across all projects, ensuring scalable, reliable, and high-performance systems.

Nathan Digital | Dubai, UAE
Full Stack Developer

2022 - 2025

- Customizing software solutions to precisely match client requirements fostering tailor-made experiences.
- Empowering clients with automation tools for easy use and minimal coding reducing on technical expertise.
- Seamlessly integrating security protocols without disrupting overall functionality.

- Implemented a sophisticated connection pool system with **LRU-CACHE**, ensuring seamless multi-database interaction and minimizing code redundancy.
- Actively identifying and simplifying complex code for improved efficiency and maintainability.
- Ensuring software security and operational reliability through robust security protocols.
- Proficiently delivering projects using the MEVN Stack (**Vue.js, Node.js, Express.js, MongoDB, Redis, NPM Packages and Vuetify**) for optimal performance and robust solutions.

Instacks Ltd. | Hyderabad, India   **2020 - 2022**
  Full Stack Developer

- Developed and maintained modules for a PaaS and E-learning platform.
- Provided responsive UI to the end-user, improved code optimization and focused on **redis** implementation.
- Implemented login module including forgot password approach to the user using **JWT** concept.
- Technology Used: MEAN Stack (**Angular 9+, Node.js, Express.js, HeidiSQL, RestAPI, GitHub, Postman, Redis, Lodash**).

SKILLS

- Vue.js, Angular9+, React.js, NextJs
- JavaScript, Node.js, NestJs, Express.js
- Redis, Vuex, LRU-Cache, NgRx, Kafka, RabbitMQ, BullMQ
- MongoDB, PostgreSQL, MySQL, Postman, Docker
- Bootstrap, Vuetify, CSS GIT Control
- NPM, PNPM, NX

ATTACHMENTS

- MTA: Introduction to Programming using HTML and CSS – Certified 2020 (Microsoft Certification ID: **wLVcaH9ad**)
- Certified with Oxford English Course (ID: **MRCET/OAHE/2018- 2019/17N31A0561**)

EDUCATION

- Jawaharlal Nehru Technological University Hyderabad, India.   **2017 - 2021** (Bachelors of Technology)
